

# CASE STUDY – DATA PLATFORM – IMPACTBOARD

ImpactBoard is a data management solution that provides programmes with intelligence to achieve impact.

It enables programmes to implement their M&E frameworks and meet their reporting requirements.

It is developed by practitioners for practitioners, eliminating the cumbersome tasks to give more time to providing much needed services to beneficiaries.

**Insightful dashboards**  
Don't mine insights from multiple spreadsheets.

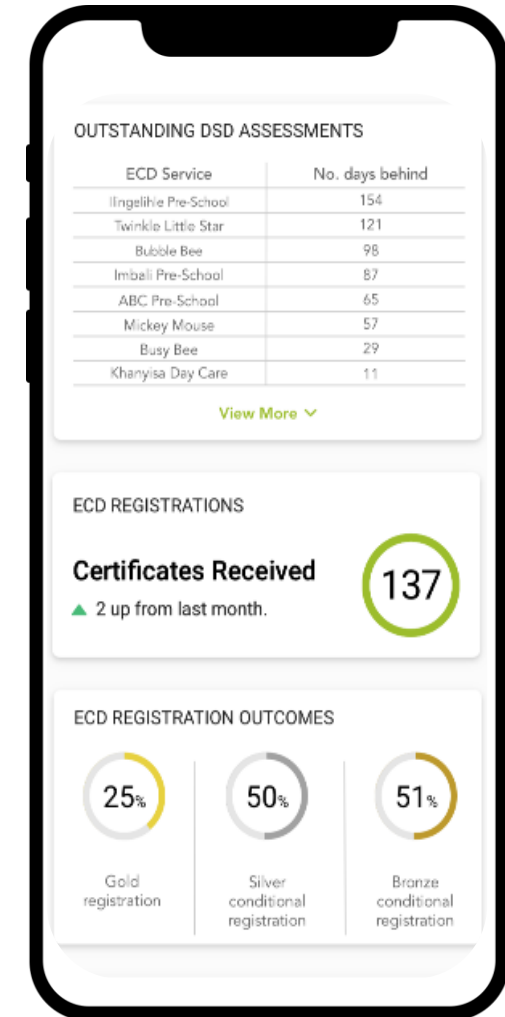

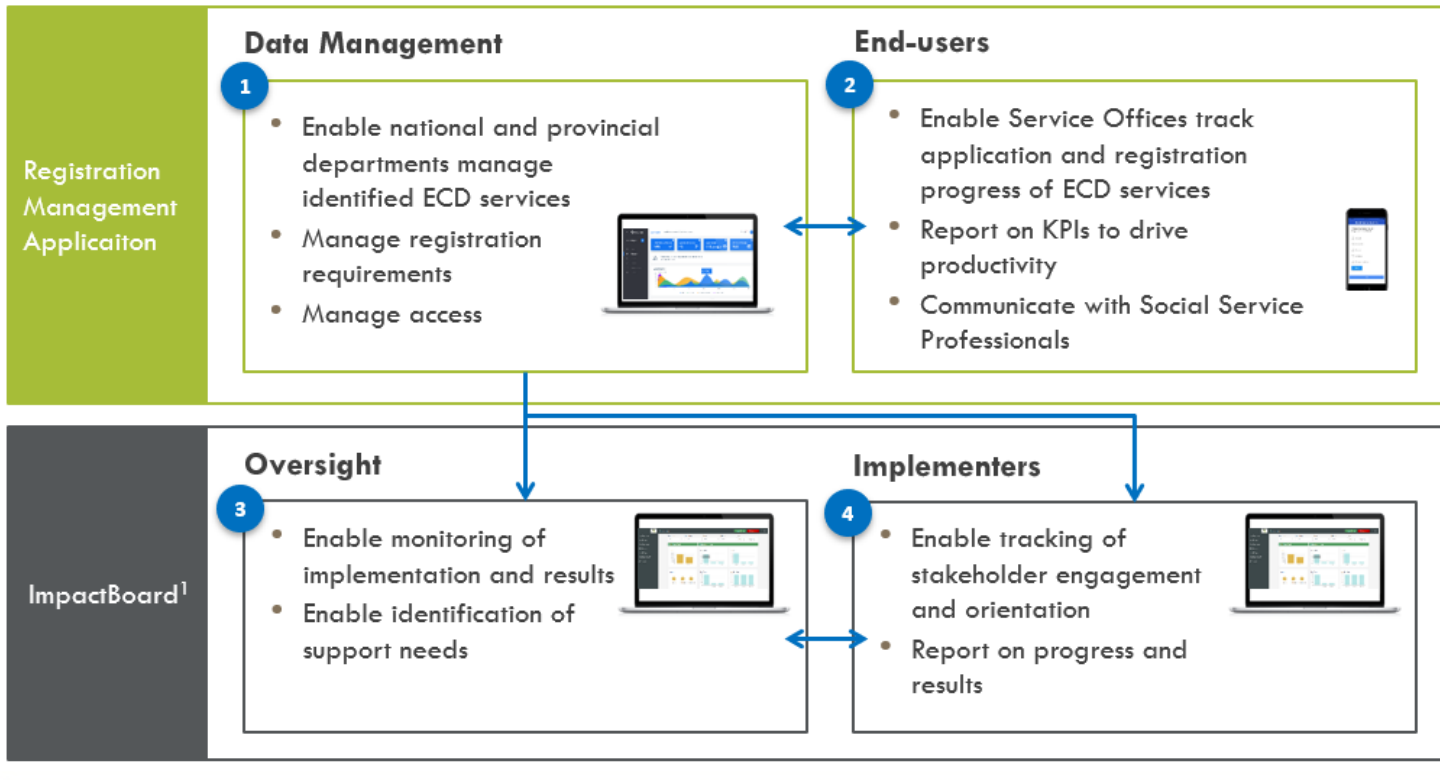

**Integrated reporting**  
Generate reports online, using multiple data sources

**Streamlined data collection**  
Save and effort, capture data once an use it many times
